III.—The Trustees.

1. The number of the trustees shall not be more than five or less than three. All appointments of future trustees shall be made by the Committee of Management. The trustees shall be ex-officio members of the Committee of Management.

3. All income received by the trustees from stock or securities held by them shall be paid to the treasurer for the benefit of the Hospital.

IV.—Admission of Patients.

1. Letters of introduction will be issued to Governors and Subscribers to the Hospital when asked for. A letter from a qualified Medical Practitioner shall be considered to be a letter of introduction. Donors of such letters are requested to give these to suitable cases only and to sign them prior to issue.

N.B.—The object of these letters of introduction is to secure that only those persons entitled to receive the benefits of the Institution shall be recommended. It is hoped that governors and others will assist the

Committee of Management in carefully ascertaining the circumstances of applicants before supplying them with letters of introduction.

2. Patients are entitled to receive the benefits of the Institution provided they are consistent subscribers under the following scheme, and are considered by the Medical Staff to be suitable cases for Hospital treatment and except in cases of accident or sudden illness shall bring a letter or certificate from their own Doctor.

Contributing Scheme A.—Provided that a contribution of not less than 3d. per week has been made for three months prior to applying for treatment and that contributions are not more than three months in arrears. This contribution will entitle the donor and his family (children limited to 16 years of age) to free treatment either as in or out-patients. *Those whose income exceeds the income tax limit are not eligible.*

The collection of these contributions will be made by the employer or someone authorised by the contributors, and a declaration by such person shall be considered sufficient evidence that the applicant, or a member of his family, is entitled to receive free treatment.

The following are not considered eligible to receive free treatment under the above scheme :

- (b) Women who are admitted for confinement.
- (c) Cases admitted under the agreement with the Local Health Authority.

Free treatment will not include the supply of instruments, appliances or spectacles, although these will be obtainable on special Hospital terms.

3. The Hospital is open for cases of accident or emergency at any time without Letters of Introduction. All cases not being admitted under A will be asked to contribute towards the cost of their maintenance. Necessitous persons at the discretion of the House Committee will be admitted and treated free of cost.

THE COMMITTEE HAVE PLEASURE IN PRESENTING THEIR THIRTY-NINTH ANNUAL REPORT TO THE GOVERNORS AND SUBSCRIBERS FOR THE YEAR 1927.

Your Committee regret to record the death of Mr. W. Llewellyn of Upton House. Mr. Llewellyn was one of the original Trustees appointed by Lord Wimborne, when the Hospital was moved to its present site in 1907. For many years he was a regular attendant at the Committee Meetings where his sound advice and legal knowledge were always freely given and highly valued. Mr. Llewellyn was always a generous subscriber to the funds both special and annual. His loss is a very real one and we tender our sincere sympathy to Mrs. Llewellyn and her family.

The attention of the Committee during the year has been mainly engaged in the extensions being made to the Hospital. Estimates were received in March, 1927 for additions to the Nurses Hostel, new Kitchen and adjuncts, and a new Childrens Ward of 16 beds. A tender amounting to £15,000 was accepted and work was commenced at once. Good progress has been made and it is hoped that the whole of the new additions comprising this scheme will be completed in the Spring, 1928.

Your Committee wish to draw your attention to the Children's Ward which is designed on an entirely new plan, and provides the maximum of sunlight and ventilation so necessary in the interests of the little patients. The Ward is built on three sides of a quadrangle with a paved 'garden' in the court. In the centre of the garden there will be a bird bath which has already been given by a subscriber, which will be a pleasing attraction for the children. The windows are glazed with Vita glass to allow the Ultra Violet Rays to pass into the Ward.

Your Committee feel that the public should be made acquainted with the present position with regard to the financial side of the extension scheme. At present the amount received has been about £7,000 out of the £15,000 required, and the provision of the remaining £8000 is causing the Committee many anxious moments. They hope that this sum will soon be forthcoming so as to reduce the Bank overdraft as the interest will be a heavy drain upon the finances of the Hospital.

As soon as the extensions now in hand are in occupation more accommodation for Out-patients will be provided in a part of the existing Hospital which will then be vacated. Your Committee are fully alive to the increased accommodation needed in this Department. The number of Out-patients has increased by no less than 957 during the year, this increase has taxed the accommodation to its utmost and there is every indication that the work will go on increasing.

The X-Ray Department was very busy, no less than 1,299 examinations were taken during the year, which is an increase of nearly 400. The other Special Departments have also proved extremely beneficial. Better accommodation must be provided for Sunlight Treatment.

Your Committee in common with other Hospitals consider that the attention of the Government should be called to the number of casualties of which are admitted as the result of motor accidents, and are of opinion that all motorists should be compelled by law to insure against all risks.

Your Committee feel that the time has arrived for entirely revising the Rules governing the Hospital ; they have prepared more comprehensive ones which will be presented to the Governors at the Annual Meeting. Your Committee consider that in view of the great area and population which the work now covers a more comprehensive title should be given to the Hospital, so that residents and new comers in the district would be better able to realise the District covered by the work of the Hospital. The name recommended by the Committee of Management by which the Hospital would now be known is : " The Cornelia and East Dorset Hospital, Poole."

The Committee desire to express their thanks to the Hon. Medical and Surgical Staff for their ungrudging services, and to the Matron and Nursing Staff who have performed their duties under many difficulties, owing to lack of accommodation, and to building operations, in a most praiseworthy and cheerful manner.

They also offer their thanks to the many friends and supporters in the Borough of Poole and surrounding districts including the Poole Carnival Committee, The Ladies Collecting Committee, St. Luke's Guild and the Approved Friendly Societies, all of whom have done great service for the Hospital, and would earnestly plead for continued and increased support either by donation or annual subscription. It is of the utmost importance that the highest state of efficiency in nursing and equipment should be maintained if the Hospital is to adequately do its work for the relief of the sick and suffering in the area it serves. At the same time the Committee recognise that they must on their part do all in their power to effect every economy consistent with its efficiencies.

CORNELIA HOSPITAL, POOLE.

Patients will in future be asked to pay the cost of their *maintenance in Hospital if their circumstances permit, but **Contributors will have the following privileges :—**

They and their dependents will be exempted :—

1. From any enquiry as to means.
2. From any payment either as an In-patient or Out-patient.

Contributors are those who have paid, or authorized their employers to deduct 3d. per week from their wages for the benefits of the Hospital.

Such contribution covers the following **Dependents** : Wives and children under sixteen, parents, grandparents and brothers and sisters living with and dependent upon the Contributor.

Persons who are ordered treatment by any public authority and women admitted for confinement are not eligible for free treatment and maintenance.

The decision as to whether any case is suitable for hospital treatment and as to the order of priority in which applicants are admitted lies with the Medical Staff, and therefore a letter from the Contributors' Medical Advisor must accompany all applications, except in cases of accident or sudden illness.

***Maintenance includes the cost of food and laundry only**, therefore, all nursing, the cost of drugs and dressing, and establishment charges are borne by the voluntary subscribers, and medical treatment is given by the Honorary Medical Staff.

Entrance Forms can be obtained on application to the Hospital.
